TypingMaster Pro for Schools

Helping the Teacher

TypingMaster makes teaching touch typing to students significantly easier and more enjoyable. Automatically recording personal study data for each student as well as calculating exercise results and test scores, TypingMaster saves time and energy so that the teacher can focus on personal assistance.

Motivated Learning

For students TypingMaster offers an enjoyable and motivating way to learn to touch type. Multi-form exercises such as keyboard drills, typing games and tests, provide diversity, whilst immediate feedback and long-term progress statistics effectively maintain motivation.

Advanced Features for Schools

Advanced User Manager

Manage student records as groups and follow progress and test scores using a variety of reports with the advanced User Manager.

Customizable typing tests

Produce fully customized typing tests for one or more classes, using texts of your own choice.

Multi-user support

TypingMaster can store personal study data of up to thousands of students, recognizing any user on any workstation within the network.

Additional training

Offer additional practice to advanced students with typing games and personalized review exercises.

Effortless installation

Easily install TypingMaster through a school network or separately to individual computers.

License packages for schools

Purchase TypingMaster easily for a number of computers at once.
